**IN EMPLOYMENT
AND UNEMPLOYMENT**

MAY, JUNE, JULY 1975

**U.S. DEPARTMENT OF LABOR
MANPOWER ADMINISTRATION**

This bulletin provides the official list of areas eligible for benefits under a number of Federal area assistance programs on the basis of high unemployment. It also provides summary manpower data on 150 major labor areas.

Descriptions of the government programs for which an area may become eligible on the basis of high unemployment, and of the Department of Labor's program for classifying such areas, are found in the Section "Explanation of Area Classifications."

SPECIAL NOTICE

The May, June, and July 1975 area classifications, which are listed in this issue, supersede those published in the April 1975 issue of Area Trends in Employment and Unemployment. May and June issues of this bulletin were not published.

No area classification changes were issued in May 1975 and the classifications for that month are therefore identical to the April 1975 classifications. All area classification changes made in June may be identified by the footnote (which indicates the effective date for procurement purposes) in the section headed "Area of Substantial or Persistent Unemployment." The classification changes made in July were effective August 1, 1975, and are identified in the "Highlights" section.

Changes Affecting Eligibility of Areas for Various Types of Federal Assistance

MAY, JUNE, JULY 1975

HIGHLIGHTS

Two major labor areas--Steubenville-Weirton, Ohio and Knoxville, Tenn.--were added in July to the list of areas officially classified by the Manpower Administration as "areas of substantial unemployment" (Groups D, E, and F). Three major labor areas--Savannah, Ga., Louisville, Ky., and Roanoke, Va.--were added to the list in June and one area--Madison, Wis.--was removed from the list. No area classifications were made in May. These changes raised the number of major labor areas in the substantial unemployment category to 129 in June and to 131 in July, the highest totals since April 1975, when 127 areas were so classified. 1/

The higher unemployment level in the Steubenville-Weirton area was due primarily to a significant employment drop in the primary metals industry, while in Knoxville, Tenn., and Roanoke, Va., the change was due to declines in apparel, textiles, and retail trade. In Savannah, job losses were reported in paper and allied products. In Louisville, recent cutbacks in construction were accompanied by continuing layoffs in machinery.

The shift of Madison from the "substantial" to the "moderate" unemployment category was due primarily to increases in manufacturing industries. Madison had been put on the "substantial" list in March 1975.

Thirty-five "other" (not major) labor areas were added in July to the substantial unemployment list. In June, sixty "other" labor areas were added to the substantial unemployment list, and two were added to the persistent unemployment list.

1/ Descriptions of the various area classification categories are found in the "Explanation of Area Classifications" section of this bulletin. The current letter classifications of the 150 major labor areas are shown in the table "Current Classification and Labor Force, Unemployment, and Employment in 150 Major Labor Areas."

On the basis of average Calendar Year 1974 unemployment rates, thirteen labor areas were added in July to the list of areas that meet qualifying unemployment criteria under the Public Works and Economic Development Act. In June sixty-five labor areas and five separate counties were added to this listing.

There were no changes in June or July in the list of classified sections of concentrated unemployment or underemployment.

All changes in area classifications made in July affecting substantial or persistent unemployment areas were effective for Federal procurement preference purposes on August 1, 1975; all changes made in June were effective on July 1, 1975.

Persistent unemployment areas are potentially eligible for all types of assistance available under the Public Works and Economic Development Act. The 11 major labor areas now in the persistent unemployment category are San Diego, San Francisco-Oakland, and Stockton, Calif.; Bridgeport and New Britain, Conn.; Muskegon-Muskegon Heights, Mich.; Mayaguez, Ponce, and San Juan, P.R.; Seattle and Tacoma, Wash. In addition to these areas, 286 other labor areas plus three large cities--Newark, N.J., Buffalo, N.Y., and Cleveland, Ohio--and three separately classified counties are considered persistent unemployment areas.

On the basis of average Calendar Year 1974 unemployment rates, thirteen labor areas were added in July and one deleted from the list of areas eligible for assistance under the Public Works and Economic Development Act. In June 65 labor areas and five separate counties were added to this listing. There were no changes to the list in May. There are now 385 labor areas and 25 separate counties which are eligible for assistance on the basis of high 1973 or 1974 annual average unemployment rates.

Sections of Concentrated Unemployment or Underemployment

There were no changes this month in the list of classified sections of concentrated unemployment or underemployment. Parts or all of 421 cities, 677 counties, in all States, 31 Indian reservations, and the Commonwealth of Puerto Rico are classified as sections of concentrated unemployment or underemployment. As indicated in the Explanation of Area Classifications summary (page 10), firms in or near these sections which agree to hire disadvantaged workers are eligible for preference in bidding on certain Federal procurement contracts.

Major Area Classification Changes

Eight of the 150 major labor areas already classified in the substantial unemployment category changed their ratings in July. One area--Saginaw, Mich.--moved from Group F (12.0 percent unemployment) to Group E (9.0 to 11.9 percent unemployment) while 2 areas--Columbus, Ga. and Greensboro-Winston Salem-High Point, N.C.--shifted from Group E to Group D (6.0 to 8.9 percent unemployment).

Five of the major areas shifted in the opposite direction, with Sacramento, Calif. and Charleston, S.C. changing from Group D (6.0 to 8.9 percent unemployment) to Group E (9.0 to 11.9 percent unemployment), and Bridgeport, Conn., Brockton and Worcester, Mass. shifting from Group E (9.0 to 11.9 percent unemployment) to Group F (12.0 or more percent unemployment). In June 15 major areas changed their ratings. Nine areas--Miami, Fla.; Kalamazoo-Portage, Mich.; Newark and New Brunswick-Perth Amboy-Sayreville, N.J.; Syracuse, N.Y.; Portland, Oreg.; Greenville-Spartanburg, S.C.; Beaumont-Port Arthur-Orange and El Paso, Texas--moved from Group D to Group E. Five areas--Rockford, Ill.; Lawrence-Haverhill and Springfield-Chicopee-Holyoke, Mass.; Battle Creek, Mich; and San Juan, P.R.--changed from Group E to Group F while one area--Atlantic City, N.J. moved in the opposite direction from Group F to Group E.

Major Area Classification Changes (Cont'd)

explanation of area classifications

Each month the Department of Labor classifies 150 major employment centers according to the adequacy of their labor supply. The classifications are based on reports, prepared by the State employment security agencies, covering employment and unemployment developments and outlook in each area. A letter classification code, shown below, is assigned to each major area. The unemployment rate is a key factor in determining the area classification, but consideration is also given to the area's employment and unemployment outlook, local employer estimates of their manpower requirements, the relationship between labor supply and demand, the seasonal pattern of employment and unemployment fluctuations in the area, and other factors.

Labor Supply Category	Description	Unemployment Rate 1/
Group A	Overall labor shortage	Less than 1.5%
Group B	Low unemployment	1.5 to 2.9%
Group C	Moderate unemployment	3.0 to 5.9%
Group D	Substantial unemployment	6.0 to 8.9%
Group E	" "	9.0 to 11.9%
Group F	" "	12.0 or more

1/ Ratio of unemployment to area's total labor force.

Areas of Substantial Unemployment

A labor area in which the current and anticipated local labor supply substantially exceeds labor requirements is classified as an area of "substantial unemployment." An area is placed in this category when:

- (1) Unemployment in the area is equal to 6 percent or more of its labor force discounting seasonal or temporary factors, and
- (2) It is anticipated that the rate of unemployment during the next 2 months will remain at 6 percent or more, discounting temporary or seasonal factors.

Major labor areas classified in Groups D, E, and F are regarded as areas of "substantial unemployment." The Department of Labor also classifies several hundred other areas when they meet the substantial unemployment criteria. These areas are not placed in specific letter classification categories. Areas of less than 1,500 population may be "certified" by State employment security agencies, upon authorization by the Department, as areas of substantial or persistent unemployment. Such areas are not included in the list of classified areas.

Areas of Persistent Unemployment

A labor area, or a city of 250,000 or more population, or a county, may be classified as an area of "persistent unemployment" when unemployment during the most recent calendar year has averaged 6 percent or more of the labor force, and the rate of unemployment has:

- (1) Averaged 6 percent or more and has been at least 50 percent above the national average for 3 of the preceding 4 calendar years, or
- (2) Averaged 6 percent or more and has been at least 75 percent above the national average for 2 of the preceding 3 calendar years, or
- (3) Averaged 6 percent or more and has been at least 100 percent above the national average for 1 of the preceding 2 calendar years.

Annual average unemployment rates used in the classification of areas of persistent unemployment are listed below:

	1974	1973	1972	1971
National Average	5.6	4.9	5.6	5.9
50% above	8.4	7.4	8.4	8.9
75%	9.8	8.6	9.8	-
100%	11.2	9.8	-	-

Sections of Concentrated Unemployment or Underemployment

Sections of concentrated unemployment or underemployment include all places participating in the Department of Labor's "Concentrated Employment Program," all "target areas" under the "Model Cities" program of the Department of Housing and Urban Development, all areas which were identified for Federal assistance to provide public service employment under Section 6 of the Emergency Employment Act of 1971 (P.L. 92-54), and Indian Reservations with a population of 4,000 or more.

Labor Areas

A "labor area" consists of a central city or cities and the surrounding territory within commuting distance. It is an economically integrated geographical unit within which workers may readily change jobs without changing their place of residence. Labor areas usually include one or more entire counties, except in New England where towns are considered the major geographical units.

Major labor areas usually have at least one central city with a population of 50,000 or more. In most instances boundaries of major labor areas coincide with those of Standard Metropolitan Statistical areas as determined by the Office of Management and Budget in consultation with a Federal interagency committee.

Geographical boundaries of all classified areas are listed in a Manpower Administration publication entitled "Directory of Important Labor Areas." Revisions in labor area boundaries are listed monthly in the "Area Trends in Employment and Unemployment" bulletin.

Federal Procurement Preference

Firms with establishments in areas of high unemployment and firms which agree to employ disadvantaged workers are eligible for three kinds of preference in certain Federal contract awards under Defense Manpower Policy No. 4, revised.

First preference is extended to firms in or near sections of concentrated unemployment or underemployment or in an area of substantial or persistent unemployment which agree to employ at least 25 percent of their newly hired workers each month from among disadvantaged residents of the classified section or area. Second preference is extended to firms located in any area which agree to hire at least 15 percent of their new hires each month from among disadvantaged workers. Third preference is given to firms in areas of persistent or substantial unemployment, with no requirement to employ disadvantaged workers.

For purposes of this program, an individual shall be considered disadvantaged if he is a poor person who does not have suitable employment and is one of the

following: (1) a school dropout, (2) under 22 years of age, (3) 45 years of age or older, (4) handicapped, or (5) subject to special obstacles to employment resulting from any other factors such as being a member of a minority.

Applications for certificates of eligibility which are required for first or second preference are available from local offices of State employment security agencies serving the area where the establishment is located. No certificate is required for third preference. Firms not otherwise eligible may nevertheless qualify for preference by agreeing to subcontract a substantial proportion of a Federal contract to eligible firms.

Firms certified for first preference and firms located in areas of substantial or persistent unemployment are also eligible for preference under Executive Order 10582, implementing the Buy American Act. For purposes of the Buy American Act areas of persistent unemployment are considered to be areas of substantial unemployment.

Public Works and Economic Development Act

Under the Public Works and Economic Development Act, areas classified by the Department of Labor as areas of persistent unemployment are recommended to the Economic Development Administration of the Department of Commerce for designation as redevelopment areas provided that other conditions required by the Act and related regulations are met. Such areas are potentially eligible for all of the types of Federal assistance provided under that Act.

Upon request, an area with an unusual and abrupt rise in unemployment due to the loss, removal, curtailment, or closing of a major source of employment may be designated as a redevelopment area by the Secretary of Commerce. To be eligible under this provision the area's rate of unemployment must have risen to a level 50 percent or more above the national average within three years prior to the date of the request, or be expected to rise to that level within three years following the date of the request, unless assistance is provided.

Areas which are not classified as areas of persistent unemployment may nevertheless be eligible for Federal grants for public works and development facilities under Title I of the Act if such areas had an annual average unemployment rate of at least 6 percent during the preceding calendar year.

The eligibility of all redevelopment areas, including those that are eligible for reasons other than unemployment, is reviewed annually. The "Area Trends" bulletin lists only those areas which are eligible on the basis of annual average unemployment.

1/ Geographical boundaries of labor areas shown in capital letters, except as noted below, are identical with boundaries of Standard Metropolitan Statistical Areas (SMSA's) established by the Office of Management and Budget (OMB). Definitions of the Manpower Administration which differ from those of the OMB are: Anchorage, Alaska; Bridgeport, Bristol, Meriden, and New Britain, Conn.; Alexandria, La.; Boston, Brockton, Fall River, Lawrence-Haverhill, Lowell, New Bedford, Pittsfield, Springfield-Chicopee-Holyoke, and Worcester, Mass.; Duluth Superior, Minn.-Wis.; New York, N.Y.; San Juan, P.R.; and Providence-Warwick-Pawtucket, R.I.; Salt Lake City-Ogden, Utah.

2/ Program eligibility extends only to corporate limits of the municipality, not to other portions of the labor area containing the city.

NOTE: Explanation of column headings and eligibility of areas under Federal assistance programs is contained in the "Explanation of Area Classifications" section of this bulletin.

Eligible Areas Under the Public Works and Economic Development Act MAY, JUNE, JULY 1975

Explanation of Coverage of Eligible List

The areas listed below are eligible for all the types of assistance available under Title IV of the Public Works and Economic Development Act. These areas meet the qualifying 6 percent unemployment criteria based on calendar year 1972 or 1973 data. Formerly, such areas were eligible only for public works assistance under Title I, which was abolished by the 1974 amendments to the Act. Classified "areas of persistent unemployment," listed elsewhere in this bulletin, also are eligible under Title IV of the Act. Areas which no longer meet the qualifying unemployment criteria may continue eligible because of amendments to the Act.
